Measure and Improve your EHSQ Initiatives with Actionable Insights

Leading organizations have spent significant efforts in digitizing their EHSQ initiatives and in gathering troves of data over the years from diverse sources. With rapidly growing data, traditional reporting capabilities available in enterprise EHSQ platforms are unable to address the increasing need for an organization to measure EHSQ program effectiveness and improve regulatory and policy compliance. That's where ProcessMAP Insight Plus steps in to address your growing needs.

ProcessMAP's Insight Plus, a next-generation advanced analytics platform that empowers EHSQ professionals with an intuitive and easy-to-use interface to create interactive dashboards and compelling reports to uncover insights hidden within your EHSQ data. The insights further help the leadership team to assess the effectiveness of their EHSQ initiatives, reduce incidents/accidents, monitor compliance risks in real time and many more.

Out-of-the-Box Reports

Identify potential risks that might impact your bottom-line by leveraging hundreds of out-of-the box dashboards, compelling reports and leading/lagging indicators that are frequently used by EHSQ Professionals.

Self-Service Capability

With an intuitive and easy-to-use drag and drop interface, create your own insightful dashboards and compelling reports to visualize your EHSQ performance in multiple dimensions for in-depth trends and analytics.

Discover Hidden Insights

Quickly assess the effectiveness of your EHSQ initiatives by unearthing hidden patterns and trends using plain language in conjunction with AI & visual exploration tools.

Insight Plus

Solution Features

ProcessMAP's Insight Plus Provides Real-Time Analytics to help Organizations to make Successful Data-Driven Business Decisions
